

NAMRATA V. KAKADE

FRONTEND/WEB DEVELOPMENT LEAD

FRONTEND ENGINEERING | REACT | ANGULAR | TYPESCRIPT | UI/UX | AI-ASSISTED DEVELOPMENT

Pune, India | +91 9960993447 | nsawant17@gmail.com | linkedin.com/in/namrata-sawant-kakade-91a49b86

Healthcare | HR / HCM | EdTech / LMS | Service Management | Enterprise Web Applications

PROFESSIONAL SUMMARY

WebDevelopment Lead / Frontend Technical Lead with 15+ years of experience in Frontend Development, UI Development, Web Application Development and Technical Leadership. Strong hands-on expertise in React.js, Angular, AngularJS, TypeScript, JavaScript, HTML5, CSS3, SCSS/SASS, Bootstrap, Material UI, Redux Toolkit and jQuery. Experienced in developing scalable, responsive and reusable UI components, frontend architecture, REST API integration, UI/UX implementation, performance optimization and cross-browser development. Experienced in leading frontend teams, mentoring developers, conducting code reviews, providing technical guidance, coordinating sprint delivery, requirement analysis, estimation, task planning, stakeholder communication and project-level delivery.

CORE SKILLS

Technical Leadership | Team Mentoring | Technical Guidance | Code Reviews | Ownership & Accountability | Knowledge Sharing | Stakeholder Management | Agile / Scrum | Sprint Planning | Estimation | Task Prioritization | Dependency Management | Risk & Issue Management | Release Planning | Delivery Coordination

FRONTEND DEVELOPMENT

React.js (React v17) | Angular (Angular 13/14) | AngularJS | Vue.js | JavaScript | TypeScript | HTML5 | CSS3 | SCSS/SASS | Tailwind CSS | Bootstrap 5 | Material UI | Syncfusion | Kendo Grid | jQuery | React-Bootstrap | Reactstrap | Redux Toolkit | React Hooks | CSS Grid | Flexbox | CSS Custom Properties

UI/UX, RESPONSIVE & ACCESSIBILITY

Responsive Design | Mobile Testing | Responsive Testing | Accessibility | WCAG 2.2 | Accessibility Testing | Design-to-Code | Wireframing | User Flows | Photoshop | Adobe XD | Figma | Sketch | Mockflow | Illustrator | CorelDRAW | InVision

ARCHITECTURE & ENGINEERING

Component Architecture | Reusable UI Architecture | SOLID | DRY | Design Patterns | Performance Optimization | Lazy Loading | Code Splitting | Cross-Browser Development | REST API Integration | Axios | HTTP Interceptors

AI-ASSISTED ENGINEERING

OpenAI / GPT / GenAI | ChatGPT | LLM-Assisted Development | Prompt Engineering | AI Coding Assistants | Code Generation | Refactoring | Debugging | Code Review | Test Generation | Documentation | AI Output Validation

TECHNICAL LEADERSHIP & DELIVERY

- Technical strategy for frontend architecture, scalable component structures, UI standards and maintainable solutions.
- Hands-on development leadership through reusable components, clean-code practices, performance optimization and implementation guidance.
- Complex Frontend problem solving, technical reviews, code reviews and support for development/production-facing frontend issues.
- Mentoring, knowledge sharing, ownership and accountability within Agile/distributed teams.
- Stakeholder collaboration, estimation, task planning, dependency coordination and predictable UI delivery.
- Client engagement, requirement clarification, UI/UX feasibility analysis, demonstrations and knowledge-transfer sessions.
- Professional-services support including application customization, client-specific workflows, technical troubleshooting and implementation guidance.

PROFESSIONAL EXPERIENCE

Harbinger Systems Pvt. Ltd., Pune

Frontend Development Lead | May 2013 – Present

- Lead frontend development across enterprise application modules, guiding architecture, reusable component patterns, UI standards and maintainable frontend solutions.
- Work closely with clients and software teams to understand requirements, clarify UI workflows and deliver client-specific functionality.
- Provide technical guidance through code reviews, complex UI problem solving, implementation standards, reusable components and development practices.
- Develop and maintain responsive dashboards, forms, tables, modals and workflow-driven interfaces using React and Angular-based technologies.
- Integrate frontend applications with REST APIs and application services, including centralized HTTP/interceptor patterns where appropriate.
- Leverage AI-assisted development for design exploration, implementation, debugging, refactoring, code-review support and test-scenario generation.
- Collaborate with distributed teams, QA and stakeholders through Agile development, ticket-based delivery and regular technical discussions.
- Mentor junior and mid-level developers and support team ownership, accountability, dependencies and delivery alignment.

Marathe Infotech Pvt. Ltd.

Web Designer | Jul 2010 – May 2013

- Designed and developed web interfaces using HTML, CSS, JavaScript, jQuery, Bootstrap and WordPress.
- Translated visual requirements into responsive, browser-compatible web pages and reusable UI patterns.
- Worked on web/mobile application interfaces and collaborated on UI improvements and client requirements.

SELECTED PROJECT EXPERIENCE

HCM / HR Tech Platform | HR Tech / HCM

Experience: Enterprise HR/HCM application development and frontend delivery
Technology: React, Material UI, Kendo Grid, HTML, CSS

- Developed end-to-end dashboard functionality and Admin/Customer modules.
- Worked on customer onboarding, employee information and attendance-related workflows.
- Designed reusable UI elements and Material Design patterns and integrated application libraries.

Healthcare Platform | Healthcare

Experience: Healthcare application frontend development and client-facing workflow support
Technology: React, HTML, CSS, Bootstrap

- Developed frontend UI for appointment, consultation and report-upload workflows.
- Participated in client stand-ups, requirement discussions and complex UI issue resolution.

EdTech / LMS | EdTech / Learning Management

Experience: LMS interface development, maintenance and UI defect resolution
Technology: Moodle, HTML, CSS, Bootstrap, JavaScript, PHP

- Developed and maintained user referral and learner/teacher/admin interfaces and resolved UI defects.

Service Management Platform | Service Management

Experience: Service-management workflow UI design and frontend implementation
Technology: AngularJS, Bootstrap, Syncfusion, .NET integration

- Created mockups and implemented approved frontend designs for service plans, schedules, invoices, reports and item management.

KEY ACHIEVEMENTS

- Successfully led frontend development and delivered enterprise applications in Healthcare and HR domains.
- Implemented reusable component library, improving development efficiency and consistency.
- Improved application performance and accessibility (WCAG 2.1) compliance.
- Mentored and guided developers, leading to better code quality and team productivity.
- Actively using AI tools for faster development, code refactoring and problem solving.

TECHNICAL ECOSYSTEM

Web Technologies & Applications: JSON | XML | HTTP | WordPress | Moodle | .NET / .NET MAUI exposure | Syncfusion | JSON templates | Adobe Captivate project integration

Tools & Delivery: Git | GitHub | GitLab | Bitbucket | JIRA | Azure DevOps | VSTS | Visual Studio | VS Code | XAMPP

Other Technology Exposure: NodeJS | Django | PHP | ASP.NET | Ruby on Rails | Java (basic knowledge)

Modern Frontend & CSS: Vue.js | Tailwind CSS | CSS Grid | Flexbox | CSS Custom Properties | Responsive Design | Mobile-First Design | Component-Based UI | Design Systems | Reusable UI Components | Cross-Browser Compatibility

PROFESSIONAL SERVICES & AI-ENABLED DELIVERY

- AI-assisted engineering for solution exploration, implementation, refactoring, review support, documentation and test-case generation, with validation.
- Cross-functional collaboration with Product, QA, backend engineers, DevOps and architecture teams.
- Quality and release support through test-scenario review, defect resolution, regression-quality improvements and release readiness.
- Contribute to sprint planning, backlog discussions, estimation, task prioritization and frontend delivery coordination.

EDUCATION

Diploma in Computer Engineering

Indira Gandhi Polytechnic, Ahmednagar | Pune University | 2004 – 2007

Diploma in Graphics, Web Designing and Multimedia

Digikore Institute, Pune | 2008 – 2010

DOMAIN & DELIVERY

HR Tech / HCM, Healthcare, EdTech / LMS and service-management applications.

Agile delivery, distributed-team collaboration, client communication, requirement clarification and cross-module coordination.
